The Red Truck

Tedd has a truck. The truck is red. Ted gets gas in his truck. Ted fills it up. Ted's red truck runs fast. The red truck went up a hill. The red truck went past a bell. The red truck went past a well. The red truck went past a frog and a log and a hog. The red truck went past a lock and a clock and a block and a sock. The red truck went past a nest and a pest and a vest. It went past a lamp and a camp

and a stamp. The red truck went past a top and a mop. A drop hit the top of the truck! It went past a bed and a sled and ten men and a hen in a pen! The red truck went past a pin and a bin and a big, big wig! It went past a cat and a mat and a stick and a brick. Bump-te-bump-te-bump! The red truck is bent. It has a big dent! If Ted cannot mend it, the big steps will end it! The End.
